Leucosphaera *leucostoma* *Leucosphaera* *leucostoma*

This image is a high-contrast, black-and-white scan of a surface. It features a dense, abstract pattern of dark, jagged shapes against a light background. These shapes are irregular and somewhat organic in form, resembling stylized trees or branches. The overall texture is grainy and lacks fine detail due to the high contrast.

Leptothrix *degladhensis* *var.* *degladhensis*
